

Millennium™ Series eBrochure

The Millennium series is the true workhorse of the Braun line. Designed for installation in the side or rear doors of domestic full-size vans, three standard models with platform lengths up to 51" ensure there is a lift to fit your needs. With dual hydraulic lifting arms, you'll come to rely on the lift's strength and dependability day after day, year after year.

The Braun Millennium Series lifts are fulling hydraulic in operation, for both the fold/unfold and up/down cycles. Lift operation is controlled by the standard hand-held control, the on-lift controls, or the optional remote control.

The Millennium Series is designed for installation in the side or rear doors of domestic full-size vans. To make your travels more enjoyable, each lift features Braun's Quite Ride® system to ensure the quietest possible riding environment.
